to be an account of another battle, but we think it pro able that it is only another rection of the affair at Frankin. From the above information and our knowledge of the state of affalts in Kansas, we can scarcely doubt that very serious trouble may be expected. Atcheson and Stringfellow came down the Mas-

Coursepondence of the New York Tribune California and Fremont Washington, Aug. 1858.

The letter containing the following extract, has just been received in this city by a Member of Congress, from a distinguished member of the har in California. It expresses the prevailing sentine ent of the people of that State in relation to the gallant Pathifieder of the Rocky Mountains.

Other letters, breathing the same spirit, have also been received in this city from influential merchints and lawyers of California. Bless the stars of John and Jessie.
